Apply Superior Quality Finishes

With one of the best spray patterns in the industry, the AirPro gun is a real stand-out!

- Even material distribution through the spray pattern for optimum coverage
- Improved transfer efficiency through reduced air consumption
- Uniform air flow through reduced spray turbulence
- Enhanced atomization through material-specific aircaps

To test these key features, Graco uses multi-dimensional imaging to measure material spray density and material distribution.

- Red indicates dense particles
- Blue indicates dispersed particles

As shown in the picture, an even blue pattern throughout is desired at the spray target.

Maximize Operator Comfort and Increase Productivity

Ergonomically designed for superior handling, the AirPro guns maximize productivity by minimizing operator fatigue and discomfort:

- Well balanced and lightweight (410 grams) gun makes it easier to spray at a steady rate all day
- Ultra-light trigger pull reduces operator muscle stress
- Ergonomic gun handle provides a comfortable grip
- Rounded control knobs for operator comfort

Wood

Aircaps and nozzles are specifically designed for wood finishing applications that require uniform material distribution at low pressures.

- Stains
- NGRs
- Toners

Needle/nozzle sizes available in 0.020", 0.030" and 0.040" (0.5, 0.8, and 1.0 mm).

- Ceramics
- Metallics
- High solids

CARBIDE NEEDLE/NOZZLE

Available in 4 needle/nozzle sizes, 0.059", 0.070", 0.086" and 0.110" (1.5, 1.8, 2.2 and 2.8 mm).

Automotive

Whether painting a car, motorhome, truck or bus, the AirPro spray gun provides excellent atomization for Class A finishes.

It is optimized to paint:

- Base coats
- Clear coats
- Primers

Needle/nozzle sizes from 0.030" to 0.055" (0.8-1.4 mm).

High Performance Finishing!

Superior Finish Quality

- Consistent pattern and film on parts.
- Constant flow to the spray gun.

Triton pump provides 50% less pressure pulsation than standard diaphragm pumps.

Note: Pump-to-pump comparison without fluid regulator

Quality pumps enhance any finishing system. Paired with AirPro spray guns, the Triton air-operated diaphragm spray package applies a high quality, decorative finish to wood and metal parts.

Triton is a more effective alternative to traditional pressure pots and standard diaphragm pumps.

High Quality Finish

Low pulsation output and smooth pump changeover deliver a consistent spray pattern.

Easy-to-use

Quick color changes and fast material refills save time and money.

Rugged Construction

Stainless steel or aluminum pump handles a wide variety of fluids.

Bold Union of Performance and Comfort

Combine spraying excellence with operator comfort and many other clever innovations, and you get the AirPro air spray gun from Graco. Ergonomically designed for superior handling, the AirPro guns have a soft, controlled and adjustable spray pattern with less overspray.

1. Aircaps in three air spray technologies to fit the needs of your environment
2. Two piece needle with replaceable tip reduces operating costs
3. Quick turn retaining ring which captures aircap upon disassembly
4. Long life needle packing for reduced downtime
5. Ultra-light trigger pull reduces operator fatigue
6. Inlet pressure adjustment (cheater) valve increases spraying flexibility
7. Air flow consumption designed to meet environmental compliance
8. Uniform air flow for reduced turbulence
9. Ergonomic knobs provide excellent operator comfort
10. One of the lightest weight (410 grams) guns in its category
